

Bruchrechnen Aufgabe 63

$$\frac{114}{287} : \frac{418}{2583}$$

$$\frac{114 * 2583}{287 * 418} = \frac{\cancel{2} * 3 * \cancel{19} * 3 * 3 * 7 * \cancel{41}}{7 * \cancel{41} * 2 * 11 * 19} = \frac{27}{11}$$
